Atlanta, Georgia | (334) 233 4289 | vraghu1028@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Data Analyst with 4+ years of experience delivering data-driven and Business Intelligence (BI) solutions across Healthcare, Retail, Financial, and E-commerce domains. Strong expertise in SQL, Python, Power BI, and Tableau, with hands-on experience building ETL pipelines, data warehouses, and KPI-driven dashboards. Proven ability in requirements gathering, stakeholder collaboration, data validation, and reporting automation to support executive decision-making in Agile environments.

TECHNICAL SKILLS

- **Programming & Querying:** SQL (PostgreSQL, MySQL, T-SQL), Python (Pandas, NumPy, PySpark), SAS
- **Business Intelligence & Visualization:** Power BI (DAX, Data Modeling), Tableau, Tableau Prep, KPI Development, Executive Dashboards, Reporting Automation
- **Data Analytics:** Data Cleaning & Transformation, Exploratory Data Analysis (EDA), Trend Analysis, Forecasting, A/B Testing, Ad-hoc Analysis, Data Validation
- **Data Engineering & Warehousing:** ETL Pipelines, Data Warehousing, Dimensional Modeling, OLAP, OLTP, Apache Kafka
- **Cloud & Platforms:** AWS (S3, EC2, IAM, Athena, Redshift, Glue), Azure, Databricks, Snowflake
- **Data Governance & Quality:** Data Governance, Metadata Management, Data Quality Metrics, Collibra, Microsoft Purview
- **Tools & Methodologies:** GitHub, Jira, Agile & Scrum, User Acceptance Testing (UAT)
- **Soft Skills:** Stakeholder Communication, Analytical Thinking, Problem Solving, Data Storytelling

WORK EXPERIENCE

Data Analyst - Cognier Inc | Atlanta, GA | Aug 2024 – Present

- Analyzed large, complex datasets using SQL, Python, and cloud-based data platforms to identify trends and actionable insights supporting business strategy
- Gathered business and reporting requirements from stakeholders and translated them into automated BI dashboards using Power BI and Tableau
- Designed, built, and supported ETL pipelines and data ingestion processes to populate enterprise data warehouses and reporting layers.
- Performed data cleaning, transformation, and data validation on structured and unstructured data from databases and APIs, improving data accuracy and reliability.
- Collaborated with data engineers and governance teams to define data standards, metadata documentation, and data quality metrics.

Associate Data Analyst - Auburn University | Dec 2023 – May 2024

- Conducted exploratory data analysis and trend analysis using Python, SQL, and Excel to support administrative reporting.
- Cleaned, transformed, and analyzed datasets of 2,500+ records to deliver actionable insights and improve data usability.
- Applied data warehousing concepts including ETL processing, dimensional modeling, and optimized SQL querying.
- Built interactive dashboards and automated reports in Power BI and Tableau, incorporating advanced Excel functions to streamline reporting workflows.

SQL Developer - ICharts Technologies | Hyderabad, India | May 2021 – Jul 2023

- Developed and optimized SQL queries, stored procedures, functions, and triggers using PostgreSQL, MySQL, and T-SQL.
- Implemented ETL workflows using SQL Server Integration Services (SSIS) to support data warehousing and reporting requirements
- Supported reporting solutions using SQL Server Reporting Services (SSRS) and SQL Server Analysis Services (SSAS).
- Performed unit testing, debugging, and performance tuning to resolve data issues and improve query efficiency, reducing issue resolution time by 25%.
- Collaborated with cross-functional teams to support data accuracy, validation, and ongoing system enhancements.

EDUCATION

Master of Science in Management Information Systems

Auburn University at Montgomery | Aug 2023 – May 2025

CERTIFICATIONS

- Professional Scrum Master – Scrum.org
- AI/BI for Data Analysts - Databricks
- Data Analysis with AI - Certified
